PREFACE.

The NEWPORT DIRECTORY for 1887 appears at the appointed time, and as usual, is filled with valuable information concerning the inhabitants and institutions of the beautiful City-by-the-Sea. All the customary care has been taken in the preparation of this volume, and special efforts have been made to obtain the latest information possible before going to press. This is found to be a very difficult matter, particularly with the list of Summer Residents, as arrivals are often quite late in the season, and so many changes constantly occur, that it is almost impossible to record them all correctly; yet it is generally conceded by good judges that our Summer Residents' Directory is very complete and reliable, and it is certain that no pains or expense have been spared in our endeavors to make it so.

The General Directory contains seven thousand five hundred and thirty-nine names (7539), including three hundred and one (301) of those who have died or removed from the city during the past year, giving date of death or place of removal. Nine hundred and seventy-three (973) of the names are new, and did not appear in the Directory of 1886. The total number of changes made in compilation is nearly four thousand (4000). The list of Summer Residents comprises five hundred and fifty-six (556).

To our patrons and to the public, from whom we have, as usual, received cheerful encouragement and assistance, we return our thanks.

SAMPSON, MURDOCK, & CO.

STREET DIRECTORY.

GIVING the location of the Streets, Places, Parks, Squares, etc., and showing what other streets and places run from them, or across them, with the number at which they intersect.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Broadway No. 220 is located, you look at Broadway upon page 22, and find that Gould Street runs from 202, and Park Street from 226, showing that 220 would come on the left, between Gould and Park Streets.

When a street crosses another, numbers (or cyphers) are given on both sides; but when it begins or ends at that street, the number is given only on the side at which it intersects. Cyphers are used where no numbers exist.

MANUFACTURERS AND IMPORTERS OF

Surgical and Dental Instruments,

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public.

Self-Propelling Chairs for Invalids.

Anti-Dust Respirator.

For Workmen in Paper Mills, Factories, Etc.

TRUSSES.

A LARGE ASSORTMENT OF BEST PATTERNS from which to select, to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip bones. If the rupture is at the navel, the measure should be around the body at the navel.

N. B.—Ladies attended by those of their own sex.

ELASTIC HOSE,

For Varicose Veins, Swollen Limbs and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity; the stout silk being usually the most satisfactory. The sizes are full length (of leg), three-quarters, half, or knee hose, knee caps and anklets. Unusual sizes made to order. Also

STEAM AND HAND ATOMIZERS IN GREAT VARIETY.

NASAL DOUCHE,

Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Bow-Legs, Club-Feet, etc. Also Crutches of various and most improved kinds; Syringes, Rubber Urinals to wear on the person day or night, for Males and Females; Galvanic Batteries, Hearing Trumpets, Auricles, and Conversation Tubes for the Deaf; together with many other articles for the use of the Sick and Invalids.

A GOLD MEDAL has lately been awarded us by the Middlesex Mechanics' Association, as will be seen from the following report, signed by a leading New England Surgeon and Physician:—

"1503. CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers. The Committee have no hesitation in awarding for this superb exhibition the highest premium. * * * The various other instruments for inhalation of atomized liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture. GOLD MEDAL. (Signed), GILMAN KIMBALL, M. D., Chairman."
